How to allow pop ups in Chrome on Android:
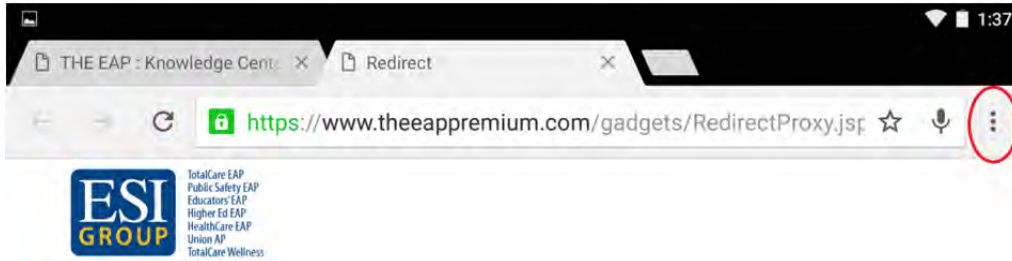

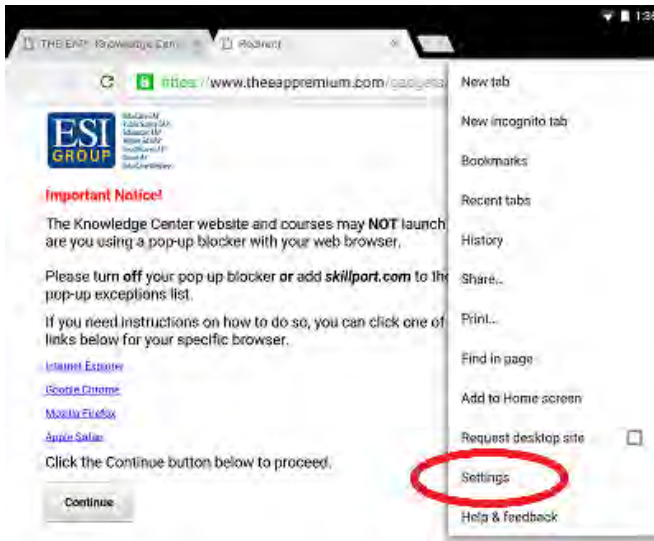

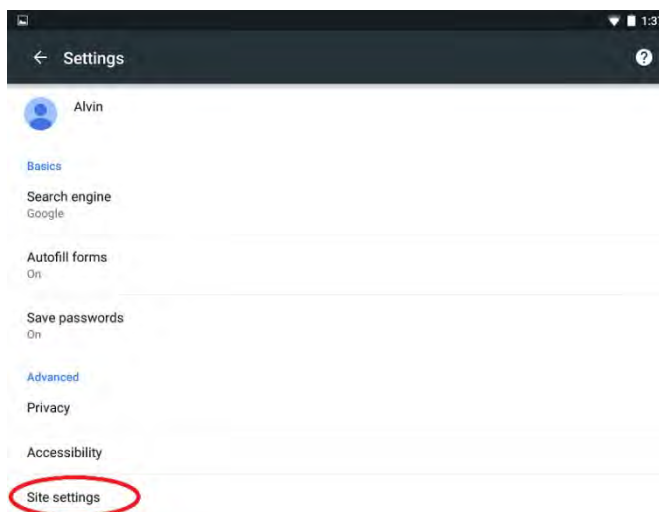

1. If you don't get the Knowledge Center to open when clicking Continue on the pop up warning page, click the menu icon in the top right corner of Chrome (3 dots).

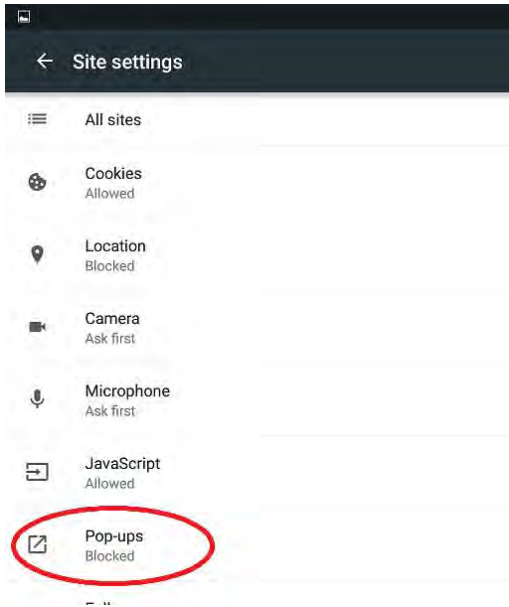

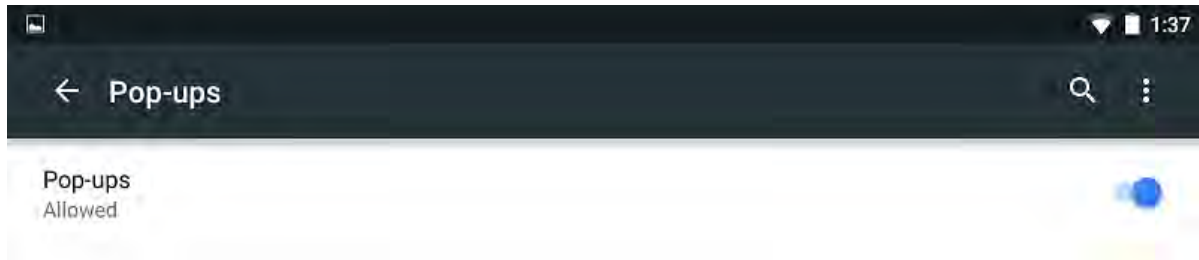

2. Click on **Settings** in the menu.

3. Click on **Site Settings** under Advanced.

4. Click on Pop-Ups

5. Click on the slider so it turns blue and it shows Pop-Ups Allowed.

6. Click the back arrow at the top of the window until you get back to the Pop Up warning page.

7. Click Continue and the Knowledge Center will open.
