Plan Early for a Debt-Free Holiday Season!

Too early to be thinking of the holidays? Nope! The key to avoiding debt that can drag you down in the new year is planning early, budgeting, and sticking to your plan. **Here are some tips to keep you out of debt:**

- **Start early! Setting a budget is key.** Determine how much you will spend on gifts, decorations, parties, travel, and other holiday expenses. Plan what you can afford without relying on credit cards or loans.
- **Create a plan.** A list helps you stay organized and prevents impulse buying. Note everything you need to purchase and then research and compare prices to make informed decisions.
- **Consider gift alternatives.** Instead of focusing on costly commercial gifts, consider homemade gifts, practical gifts, special favors, or gifts of time together that will create memories.
- **Use cash or your debit card whenever possible.** This prevents overspending since you're limited to the **money you have on hand.**
- **Avoid playing "cash flow" tricks by bumping regular bills to redirect money to holiday spending.** Find ways to cut back on your monthly discretionary spending instead.
- **Plan holiday meals carefully.** Potluck gatherings where everyone contributes can alleviate the financial burden. Research budget-friendly recipes and shop strategically, taking advantage of sales and coupons.
- **Tap into online tools and apps.** Use apps to track your spending, set financial goals, and get alerts if you're approaching your budget limit.
- **Use your EAP benefits and tools.** Log in to www.HealthCareEAP.com and click the **Personal Finance and Education Center** tile for hundreds of tools to help make the best financial choices. Also, check out the **Lifestyle Savings Benefit** for savings on thousands of products and services ranging from clothing to food items and entertainment.

Remember that holidays are about more than material gifts. Focus on experiences, traditions, and spending time with loved ones.

Your Safety Matters

Domestic violence—also known as "family violence" or Intimate Partner Violence (IPV) -- affects almost 1 in 3 women and 1 in 4 men in their lifetime, yet it's a topic that's often avoided. IPV encompasses physical violence, sexual violence, stalking, aggression, or emotional harm by a current or former partner, regardless of sexual orientation. The pandemic has exacerbated IPV due to isolation, job loss, and stressors. Victims, held back by fear and shame, rarely discuss, or seek help, resulting in hidden danger until severe harm occurs.

If you or someone you care about faces abuse, reach out for help. **In emergencies, dial 911.**

Your EAP also offers counseling and self-help tools to help you recognize signs, create safety plans, and locate local shelters.

You can also contact the **National Domestic Violence Hotline at 1-800-799-7233 (SAFE) or 1-800-787-3224 (TTY)**. Your safety matters!

October 8th: Depression Screening Day

A Gallup poll earlier this year said **17.9%** of Americans are being treated for depression, up about 7 percentage points since they began tracking in 2015. Just as you care for your physical health, it's equally important to care for your mental health, but psychological pain often goes unrecognized or untreated. Don't wait to get help if you are in pain. Why not take a free, anonymous assessment on [October 8, Depression Screening Day](#). Also, members of ESI EAP can access depression screening and other health assessments 24/7/365 by logging in at www.HealthCareEAP.com.
