

Grow Into the New Year

Every January 1, millions of people pledge to quit something: smoking, drinking, overspending, unhealthy eating. But resolutions built around restrictions can feel heavy and punitive, and research shows they're harder to sustain. A more effective approach is to shift from *"What should I stop?"* to *"How can I grow?"* Positive, growth-based resolutions focus on building skills, strengthening relationships, improving well-being, and setting yourself up for a more fulfilling year. This mindset emphasizes possibility over pressure and it's far more motivating. This year, choose resolutions that lift you up. With the right tools and support from your EAP, you can make 2026 a year of meaningful, sustainable improvement. Here are a few uplifting growth resolution ideas:

- **Invest in Your Mental Well-being.** Resolve to check in with yourself more regularly, learn stress-management techniques, or talk to a counselor when you need support.
- **Build New Skills.** Commit to learning something that fuels your career or personal interests: communication skills, leadership development, technology basics, or even a new hobby.
- **Strengthen Financial Confidence.** Instead of vowing to *"stop overspending,"* try *"learn how to build a stronger budget"* or *"improve my financial planning habits."*
- **Prioritize Healthy Routines.** Focus on adding, not restricting. More movement, more sleep, more healthy foods, more breaks, more time outdoors.
- **Be Kinder to Yourself and to Others.** Resolve to practice patience, extend grace during stressful moments, and cultivate daily acts of kindness. These habits improve relationships, workplace culture, and personal well-being.

Tap into your EAP's services as a partner in pursuing these goals. EAP services are designed to support growth in every area of life:

- **Counseling and Telephonic Coaching** to help you build resilience, develop healthier habits, and navigate challenges along the way.
- **Training & Development Courses** covering hundreds of topics, from communication and stress management to leadership and personal productivity.
- **Wellness and Lifestyle Resources** to help you stay on track with physical and emotional well-being.
- **Financial Tools and Coaching** to build confidence around budgeting, saving, and planning.

Keep your resolutions momentum going with structure. A few proven strategies:

- **Start Small.** Break big goals into manageable steps.
- **Be Specific.** *"Learn a new skill"* becomes more attainable as *"Complete one online course each month."*
- **Track Progress.** Celebrate small wins to create momentum.
- **Ask for Support.** A coach, counselor, or mentor can provide guidance and accountability.
- **Be Flexible.** Setbacks aren't failures; they're part of growth.

Seasonal Blues

Are you experiencing **Seasonal Affective Disorder, or S.A.D.**? It's a common malady between December and March. Generally, S.A.D. is related to changes in your body chemistry, such as your serotonin and melatonin levels. Lack of light is deemed to be a common trigger, but other factors can contribute. See our blog post [Down in the doldrums? It might be Seasonal Affective Disorder \(S.A.D.\)](#) to get tips for managing this seasonal depression.
