Make Room for *More* in 2027

Before making lists of resolutions for 2027, consider this: What would you like more of in your life? More time with people you love? More energy for things you enjoy? More confidence about money? More opportunities to learn? It's a chance for a priority reset that will allow you to make room for what matters most to you. That may mean adding something meaningful, letting go of something draining, or getting help with a challenge you've been carrying alone. Start by choosing one or two things you'd like to see more of in your life and then plan small steps to create space for them. Here are a few ideas - and ways your EAP can help.

- **More breathing room.** Look at your calendar before adding another commitment. Could you simplify a routine, share a responsibility, or politely decline something? Explore EAP resources for managing your time and finding a more comfortable work-life balance by logging in to www.HealthCareEAP.com.
- **More connection.** Make getting together with your favorite people easier with a regular phone call, a shared lunchtime walk, or a monthly meal. If an important relationship needs work, EAP coaching or counseling can help you address the challenges.
- **More financial confidence.** Choose one manageable task, such as reviewing subscriptions, organizing bills, or setting up a small automatic savings transfer. EAP financial tools and coaching can help you identify priorities, establish budgets, reduce debt, and plan ways to save for big financial goals.
- **More enjoyment.** Revisit a hobby or pastime you once loved or try something new that sparks your curiosity. Read for pleasure, take a class, make music, spend time outdoors, or travel to a new place. Give enjoyment an actual place on your calendar.
- **More Growth.** Learning new skills and competencies can be satisfying and yield personal and professional growth. Your EAP has a wealth of learning resources, from online work-related training to personal growth webinars in the Talkspace Go App.
- **More support.** You don't have to solve every problem before asking for help. Whether you're navigating stress, caregiving, a difficult transition, or an ongoing concern, your EAP offers counseling and practical resources to help you move forward.

As the year unfolds, check in with yourself: What's working and what needs adjusting? Your priorities may change, and your plans can change with them. You don't need to map out all of 2027 today. Start by making a little room for some things that matter most to you and go from there. And remember, your EAP is here to help.
